

## **It Never Rains**

(B.Fontana)

One day I might return to you...  
One day I might return to you...  
One day I might return to you with eyes you have never seen...  
One day I might return to you ...

In a shape of a dream I will reappear  
One day I might return to you with eyes you've never seen  
One day I might return to you ...

Hand in hand we stand, tomorrow the dream will be over...  
Eye to Eye we will see what we will be!  
One more day, One more night we stand for the price of a fight!  
Hand in Hand we stand, tomorrow the dream will be over ...

We worked our fingers to the bone, nothing grows around here  
Let's leave all this desert land 'cause it never, never rains around here...

It never Rains around here... so let's go!
